

FACTORY CERTIFIED SERVICE & PARTS FOR BLOWERS

# Hoffman & Lamson Protection PLAN

It's all about...

# PEACE OF MIND

The Hoffman & Lamson® Protection PLAN program is designed to help our customers enjoy enhanced blower reliability and prevent costly down time.

Blower problems are often the result of operational, system, installation, or other peripheral causes, which can be easily determined by our team of trained and certified Hoffman & Lamson service technicians. The Hoffman & Lamson Protection PLAN reflects the desire of our service technicians to prevent equipment failure and to solve the root cause of blower problems. Participants of this agreement benefit from the combined knowledge and experience of these skilled technicians, whether the service is provided in the field or directly at our factory.

## Comprehensive Service Report

The Protection PLAN | **All Inclusive Benefits**

- ✓ Bearing Inspection & Replacement
- ✓ Seal Evaluation
- ✓ Bearing Housing Evaluation
- ✓ Lubrication Change
- ✓ Laser Alignment
- ✓ Bearing Temperature Evaluation
- ✓ Vibration Check
- ✓ Surge Evaluation
- ✓ Controls Evaluation

## The Highest Equipment Reliability & Return on Maintenance Cost

- Eliminate Worry
- Complete Annual Maintenance
- Savings on Repairs
- Reduce Downtime
- Priority Service Appointments
- Extended Limited Warranty on Blower
- Known Budgeted Costs
- Savings on Parts
- Any Term Length 1 to 5 Years

# Hoffman & Lamson

## Protection PLAN Multi-Point Inspection

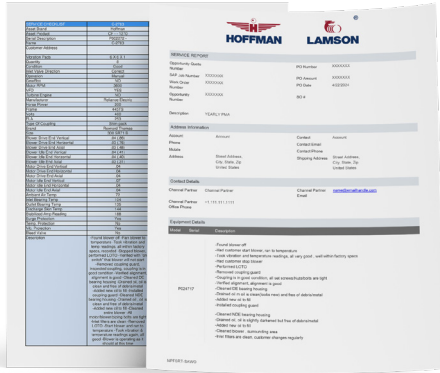

- ✓ Blower Operational Check
- ✓ Lubrication Change: Ensuring the proper lubrication and cleanliness of the lubrication will extend the life of your bearings.
- ✓ Bearings: The heart of your rotating equipment.
  - ◆ Vibration condition analysis
  - ◆ Temperature check
  - ◆ Bearing replacement is included if required
- ✓ Shaft Seals: Ensures process is contained properly within your blower or exhauster.
- ✓ Labyrinth, Carbon Ring, or Max Seal Inspection
- ✓ Control Fugitive Emissions
  - ◆ Replacement/repair of shaft seals are included if required
- ✓ Bearing Housing: Worn bearing housings can lead to costly downtime from bearing failure or excessive vibration.
  - ◆ Dimensional inspection if applicable
  - ◆ Spacer, gaskets and associated hardware inspection
  - ◆ Recommendation to replace or repair if necessary
- ✓ Oil Reservoir\*: A contaminated reservoir can lead to premature bearing failure.
  - ◆ Worn oil reservoirs may also allow the rotating assembly to float causing unrepairable damage to the rotating assembly.
  - ◆ Oiler inspection and adjustment if equipped.
- ✓ Bearing Retainers and Bearing Caps\*: A worn bearing retainer or bearing cap can allow the rotating assembly to float causing unrepairable damage to the rotating assembly.
- ✓ Laser Alignment: Ensures that your blower and motor are properly aligned to eliminate unnecessary vibration and bearing failure in your blower.
- ✓ Installation inspection for pipe misalignment or foundation deficiencies.
- ✓ Controls Inspection and Adjustment\*
- ✓ Blower Surge Safety Verification: Extend the life of the blower by preventing the unit from running in a surge condition.

### Additional services included:

- ✓ Coupling Inspection
- ✓ Vibration Isolator Inspection
- ✓ Motor Evaluation, Amp Check
- ✓ Inlet and Outlet Valve Inspection for Proper Orientation and Operation
- ✓ Filter Inspection
- ✓ Additional Parts and Repairs Discount

*\*If your blower is equipped with these items, they will be included in your Hoffman and Lamson Protection PLAN.*

## Track Your Equipment Health with Our Comprehensive Service Report

At the conclusion of the service detailed above, the customer will be provided with a comprehensive report complete with vibration data and recommendations. The cost of this service includes bearing replacement and seal replacement for each blower as necessary. In the event a bearing change or seal change is not recommended the bearing kit and seal kit will remain with the customer for future use as consumable parts. If any additional parts are identified as problematic, their replacement will be offered at a 15% Protection PLAN discount.

If the blower is in or is restored to a warrantable condition and routine maintenance is performed, a one-year Limited Hoffman & Lamson Factory Warranty will be applied. See Program details. This partnership program between Hoffman & Lamson and the owner requires periodic maintenance by the operator in accordance with the O&M manual. This service is offered in accordance with our standard Terms & Conditions attached.
